PURPOSE AND OVERVIEW (max. 5 sentences)

Students will be able to communicate in English language orally and in written form and the language of sport will be used for terminology acquisition essential for their future professional expertise work. Students will be able to demonstrate increased proficiency in interpersonal, interpretive and presentational communication skills. They will exhibit growth in cultural, literary and interdisciplinary knowledge and connect it to sports sciences as they move through a sequence of study.

SYLLABUS (brief outline and summary of topics, max. 10 sentences)

Theory: Grammar of English language at the intermediate level of proficiency acquired in the secondary schools but in the vocabulary area new sports terminology entries are added. In writing skills students will learn academic writing style and this underpins new style of writing with distinct discourse patterns and persuasive style. Scientific style of writing and research findings reporting which requires solid speaking skills, basic and complex verb tenses characteristic for verb patterns to accommodate rhetorical style of scientific literature. **Practicals:** Practical are used to develop theoretical knowledge on the new styles of writing with distinct discourse patterns and persuasive style which are further practiced on seminar paper texts and students' choices of topics. Basic and complex verb tenses characteristic for verb patterns to accommodate rhetorical style of scientific literature are going to be practiced so that they can be easily recognized and used for independent writing and adequate use of specific-domain language.
